

**Thank you for purchasing a Mustard Bikes Fender Eliminator.
The following is a brief guide for installation of your
Yamaha FZ-1 and FZ-8 Fender Eliminator.**

1. Remove pillion seat using the key.
2. Remove the fender eliminator by removing 4 x M10 bolts under the pillion seat.
3. Locate fender wiring and unplug the indicators and number plate light.
4. Remove indicators and fit to fender eliminator after fitting supplied spacers (Oval rings).
5. Feed all wiring through fender eliminator and offer assembly to the bike.
6. Use 4 x OEM bolt with the supplied 4 x M8 lock nut to hold fender eliminator in place. Do not tighten.
7. Plug in wiring and check for correct operation. The LED bolt is polarity sensitive. If it does not light up switch the wires around and check again.
8. Tighten all bolts.
9. Refit Pillion seat.

If you have any problems with installation feel free to contact us at help@mustardbikes.com for any queries.
We will be more than happy to help in any way we can.
